ABOUT US

ADVANCED CHEMICALS FZCO A WORLD-CLASS OILFIELD CHEMICALS MANUFACTURER SPECIALIZED IN THE MANUFACTURING OF INNOVATIVE DRILLING FLUIDS TECHNOLOGY.

Advanced Chemicals FZCO is a global company headquartered at Jebel Ali South, Dubai, United Arab Emirates. We are addressing customer challenges during drilling, completions, Cementing and production operations by supplying high-tech drilling fluid formulations. Combining our technical expertise, proprietary products, and a high-standard of customer care, we deliver safe,

In addition to our innovative drilling fluid products, we also offer the services of our experienced technicians, who can provide field support, operator training and testing services

OUR VISION

Our vision is to achieve innovative growth and be a trusted and progressive drilling fluids and specialty chemicals manufacturing company which creates value for stakeholders, customers and employees.

OUR MISSION

We aspire to provide the best quality products with good value pricing while establishing a functional relationship with our customers & suppliers.

INFRASTRUCTURE

Due to our rich, advanced, sophisticated and state-of-the-art infrastructure, we are able to process and supply best quality chemicals for our valuable customers. Spread over a wide range of area in Jebel Ali South, Dubai, United Arab Emirates our infrastructure is carefully divided into manufacturing, warehouse & packaging, in-house quality testing, research & development and sales & marketing units in

The Plant has a fully Functioning Lab, Reactors, High shear Mixers with Condensation/Vacuum Reactions, Thermic Fluid Heater, Cooling Towers, Fume extraction system, Well designed Fire Hydrant System, Instrumentation- Flow meters, Temperature sensors etc. The plant has a tank farm of 2,000 KL total capacity and also Loading Platform for 2 Trucks/Containers.

Products - Oilfield

Drilling

Water based drilling fluids

- 🔥 Viscosifiers
- 🔥 Filtration Reducers
- 🔥 Lost Circulation materials
- 🔥 Lubricants
- 🔥 Surfactants
- 🔥 Corrosion & Scale Inhibitors
- 🔥 Shale Inhibitors/Stabilizers
- 🔥 Biocide & Scavengers
- 🔥 Defoamers and Foamers
- 🔥 Alkalinity control agents
- 🔥 Commodities

Nonaqueous based fluids

- 🔥 Emulsifiers
- 🔥 Wetting Agent
- 🔥 Filtrate controllers
- 🔥 Viscosifiers
- 🔥 Lost Circulation material
- 🔥 Corrosion Inhibitor

Cementing Chemicals

- 🔥 Accelerators
- 🔥 Extenders and density reducing agents
- 🔥 Dispersants
- 🔥 Retarders
- 🔥 Fluid Loss Additives

- 🔥 Antifoam agents
- 🔥 Weighting agents
- 🔥 Loss Circulation materials
- 🔥 Biocides
- 🔥 Surfactants

Stimulation & Acidizing Treatment

- 🔥 Acid Corrosion Inhibitors
- 🔥 Emulsifiers
- 🔥 Non-Emulsifiers
- 🔥 Surfactants
- 🔥 Iron control agent
- 🔥 Clay Stabilizer

- 🔥 Acid Gelling Agent
- 🔥 Visco Elastic Surfactant
- 🔥 Anti-Sludging Agent
- 🔥 Formic acid
- 🔥 Xylene
- 🔥 Mutual Solvent

Production Chemicals

- 🔥 Biocides
- 🔥 Demulsifiers
- 🔥 Corrosion Inhibitors
- 🔥 DeFoamers
- 🔥 Foamers
- 🔥 Scale Control

- 🔥 Paraffin Inhibitors
- 🔥 Oxygen Scavengers
- 🔥 H₂S Scavengers
- 🔥 Flow Improvers
- 🔥 Water Clarifiers

QHSE

Commitment to Quality and HSE

To ensure our products and services meet – if not surpass – global standards, Advanced Chemicals extends comprehensive support to bring all processes up to legal and international standards requirements, safely and with the highest quality in compliance. To ensure a safe and healthy workplace, our practices are guided by a highly comprehensive HSE management system which is embedded into our business culture. All activities are conducted and closely scrutinized to safeguard not just employees but also the environment.

QUALITY

Quality is a key priority in every aspect of our work. Our customers are relying on us to deliver the highest quality standards, and we are committed to living up to their expectations. We are consistently producing high quality products enable our customers to achieve their goals. We are committed to excellence in quality in manufacturing facility.

RESEARCH AND DEVELOPMENT

Advanced Chemicals FZCO's R&D department has become a force to reckon with, contributing significantly to the company's growth through new products, technologies & Intellectual property. We are one among very few research laboratories in the Middle East having

Our Research and Development teams constantly strive to innovate products that maintain highest quality standards. The R&D has a highly motivated team of highly qualified and dedicated scientists. The knowledge and passion of them is a tremendous asset, and we recognize the value in personal development for all our employees in an innovation leadership. Our R&D is in-line with ISO, API and ASTM standards.

WAREHOUSING AND LOGISTICS

Our production facility has sophisticated open and closed warehouses to store raw materials, consumables, packing materials and designated area for finished goods. Our warehouses are equipped with proper fire suppression systems, liquid containment, and safety equipment. We have an in-house logistics team completely capable of handling containerized as well as break bulk cargo. We have excellent relationship with reputed shipping lines and are able to offer most competitive ocean freight rates to our customers.

Our production & Storage facility is well located in south of Jebel Ali Free Zone. Jebel Ali is an important Gateway hub that enables trade across the region and beyond. It is a vital link in the global trade network, connecting eastern and western markets with North Africa, the Middle East, and South Asia. It is the largest seaport in the Middle East and ranks among the top 10 container ports of the world. The port's container handling capacity has grown from 18 million TEU (twenty-foot equivalent units) to 22.4 million TEU. Jebel Ali Port has been voted "Best Seaport – Middle East" for 24 consecutive years.
